# Instructions

## Make Strips:

- Use package instructions to make strips (2 in Color A, 1 in Color B). With appropriate color yarn, cast-on yarn to Hair Pin Lace Tool.
- Work until strips are desired length. Fasten off.

## Join Strips:

- Lay strips parallel to each other
- Removing guide threads as you go, insert hook through first 2 loops of strip on the RH side (Color B Strip), then first 2 loops of strip on the LH side (Color A Strip); pull both Color A loops (as if they were one) through both Color B loops (you'll now have only two Color A Loops on the hook.) \*Insert hook through next two loops of Color B strip; pull them through the Color A loops; insert hook through next two Color A loops; pull them through Color B loops. Repeat from \* until strips are fully connected.
- Cut yarn, leaving a tail and feed it through the last loops. Knot if necessary.
- Repeat process to attach second Color A strip.

## Edging:

- Note: You'll be working through two loops at a time for the entire edging.
- Join Color A by inserting hook through the first 2 loops on one side of the piece and pulling a loop through.
- Ch 2 (counts as sc), \*[dc into next two loops, 3 dc AROUND the post of that same dc], sc through next two loops; repeat from \* to end.
- Fasten off. Repeat for opposite side. Weave in ends.

# Instructions (cont.)

## Make Braided Fringe:

- Cut 3, 40"/101.5 cm, strands of yarn. Holding strands together, fold in half. Insert crochet hook through RS of scarf edge; lay yarn at the folded point over the hook. Pull yarn through, from back to front, just enough to create loop. Set aside hook and use hands to fold the loop over the edge of the project, pulling the ends of the yarn through the loop. Pull tight.
- You'll now have 6 strands hanging (3 strands folded). Separate into 3 groups of 2 strands; braid. Knot off. Trim and fray ends.
- Repeat process, attaching 5 fringe bunches evenly across each end of scarf.
